'Challenge' a Boat for all Seasons

Docklands Canal Boat Trust (DCBT)

DCBT was formed in 1984 when they commissioned their purpose built river boat, MV Challenge. The boat was built in a British ship yard in the North East of England. Present at the Keel laying ceremony was Michael Crawford of *Some Mother's do have 'em'* fame.

Following its launch at Tilbury and its river trials, the boat was officially commissioned in the presence of Princess Michael of Kent.

Since then our boat has cruised the waterways of London, Essex and Hertfordshire providing memorable holidays for a wide range of groups and families with disabilities.

Where we operate from

MV. Challenge is moored opposite the Princess of Wales public house on Lea Bridge Road, Hackney, E5 9RB. This is a great place for starting or ending boat trips as there is a convenient car park with good access to the boarding quay for wheelchairs and disabled passengers.

Where We Cruise

From its base on the River Lee we can cruise the waterways of London, Essex and Hertfordshire for a day, a week or even longer. Just 20 minutes away is the new 2012 Olympic Stadium. Although still under construction, in years to come this will be one of the premier destinations for our boat. Plans are in progress for numerous river side developments to enhance the River Lee and surrounding areas.

New Olympic Park

Heading south we can sail into the Hertford Union and Regents Canal system visiting many of famous canal side attractions in London. This includes:

- Camden Lock
- The Canal Museum
- Victoria Park
- Regents Park
- Three Mills Island
- Limehouse Basin

Cruising north the world is our oyster. Right on our doorstep we have **Walthamstow Marshes Nature Reserve**, which is a Site of Special Scientific Interest (SSSI). Whilst land all around was being developed, this snippet of nature survived and today is still the home to old breeds of cattle (Dexters, British Longhorn and Belted Galloways) which the Regional Park uses to help maintain the reserve as it has been for thousands of years. This is also a great picnic area and ideal for school groups to study nature.

Further along we pass Springfield Marina and the varied boats moored along the river. Great for people watching and checking out who's not washed their net curtains!

Before passing the industrial areas of the North Circular Road we cruise past more delightful areas such as Tottenham Marshes, Stonebridge Lock and Tottenham Lock. At Stonebridge there is the wonderful Watersedge Café where they serve excellent snacks, tea, coffee and cakes.

Once we have passed Enfield and cruised under the M25 we head into the River Lee Country Park. This is a mass of lakes, ponds and wildlife habitats.

In a week we can cruise as far as Ware in Hertfordshire passing many riverside attractions, pubs and leisure opportunities.

Our Skippers and Crew

MV. Challenge comes with its own fully trained skippers and crew. All our teams are volunteers but are trained to an extremely high standard, including:

- Coastguard Agency approved Community Boat Management.
- Health & Safety & Food Hygiene
- Adult & Child protection
- First Aid
- Man overboard recovery
